

BUDGET PROPOSAL

Please utilize USD for preparing this budget. Please note that the University of Chicago requests conversion rates be drawn from Oanda (<https://www.oanda.com/currency-converter/en/>)

PI Name:		Bruno Aravena-Magüida	
Name of Proposed Project:		Unpacking causal effects of schools	
Project Period: (Month/Year)		From: July 2026	To: Dec 2027
Contact Name & Email		Bruno Aravena-Magüida (brunem@uchicago.edu)	
EXPENSES	Budget Year 1	Budget Year 2	Details
<i>Item</i>			
Personnel			
Training participation stipend		\$ 480	24 enumerators * 20 USD
Enumerator per school payment		\$ 11.200	400 schools * 2 enumerators * 14 USD
Enumerator per class payment		\$ 11.200	400 schools * 4 grades/ school * 7 USD
Field coordinators		\$ 4.500	3 part-time coordinators * 3months * 500USD/month
Total Salary	\$ -	\$ 27.380	*Will auto calculate
			In Chile, short-term survey enumerators are often contracted on a temporary or honorarios basis, so compensation commonly consists of a daily/hourly/per-survey payment and may not include employer-provided fringe benefits such as paid vacation, health insurance, retirement contributions, or bonuses.
	\$ -	\$ -	
Sub Total Salary & Fringe Benefits	\$ -	\$ 27.380	*Will auto calculate
Travel and Subsistence			
Average Enumerator Transport Benefit	\$ -	\$ 2.700	Approximately 134 team-days * 2 enumerators * 10USD (rounded up). NOTE: This is an average transport benefit and the exact formula needs to be precisely defined. Under current fuel prices, this should cover approximately an 80km round trip, which may be necessary for some regional school visits.
PI Transport	\$ 1.000	\$ 2.000	One trip for piloting and coordination in Year 1; one longer trip or two shorter trips in Year 2 for enumerator training, field supervision, and quality assurance.
PI Subsistence	\$ 750	\$ 1.500	
Other			
Survey incentive raffle		\$ 1.000	50 * 20 USD GiftCard
SurveyCTO Plan		\$ 2.100	3 months of SurveyCTO Advanced * 700/month
Fieldwork contingency		\$ 2.000	
Backup/admin survey devices		\$ 1.200	1 device * 12 teams * 100 USD
Training and field materials		\$ 1.000	Enumerator training materials, school letters, printed instructions, QR sheets, and field protocols.
Mobile data / phone communication		\$ 600	24 enumerators * 25USD for mobile data and phone communication during fieldwork.
Total Budget	\$ 1.750	\$ 41.480	*Will auto calculate

\$ 43.230

BUDGET PROPOSAL NOTES

General Notes: Project proposed is a data collection exercise across 400 schools in 5 Chilean regions. I intend to survey roughly 100 students in each school from 4 different grades for a total of 40,000 surveys. To this effect I intend to recruit 24 enumerators, forming 12 teams of 2. Four teams will be based in Santiago, and two teams will be assigned to each of the four additional regions. A team is expected to cover in average 3 schools in a full field day. Teams should have a load of 10-14 field days to be executed in 6 weeks. Payment formula includes both a per school and a per class payment and a transport benefit per field-day. Implied cost is under \$1 per survey, but this is only plausible because the survey is school-based, group-administered, and self-completed on devices or school computers, in line with other similar surveys run in the country.
